Search for resources online at 211norcal.org

- Use the blue tiles of categories for the most comprehensive resources available.
- Using the keyword search can cause important resources to be left out due to differences in the way people might describe services and the "database taxonomy of terms" (database lingo for the extensive category and label system for resources).
 - If using keyword search, type slowly and choose from one of the auto-populated terms.
- Visit the [Special Services](#) tab for resources from special programs that 2-1-1 and community partners collaborate on.
- Visit the [Disaster Resources](#) tab for resources for the 2018 Fires in Shasta and Butte County
